DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

a) In claim 41 lines 7-8, "first channel member channel" to --first channel member--

Allowable Subject Matter

2. Claims 40-43 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for the indication of the allowability of claims 40-43 is:

Regarding claims 40-43, the prior art does not teach or fairly suggest in combination with the other claimed limitations a method comprising a locking the first cover to the first channel member with a locking device that is operable only from within the first conduit section and is accessible only through an open end thereof.

This limitation was found in claims 40-43, and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed on October 12, 2005 have been fully considered and are persuasive.

In response to the applicant's arguments the Examiner agrees that neither Mark et al (US 3,312,251) nor the cited prior art teach, disclose or suggest a method comprising locking the first cover to the first channel member with a locking device that is operable only from within the first conduit section and is accessible only through an open end thereof.
